

PRAGATI

TECHNOLOGY?

OR

What do our young developers think?

"Technology can be an effective medium to improve the World where we live. In fact, it is like a boon." - CS DEPT.

ADDICTION

In the last few years, especially after the pandemic period, children have got mobile and gadgets as an instrument for recreation. The young minds' habit of reading is endangered now. Technology should be used to develop their mind by solving puzzles, imparting education, etc.

SOCIAL - MEDIA

Many people, now-a-days, irrespective of their ages, have fallen addicted to Social Media. Thus it is like a curse to them. But, it may also be looked upon as a convenient and huge platform to remain connected to other people across the world.

GAMING

Gaming is now a trending topic of headache for most adults and for fun and addiction to most of the children.

But its limited and controlled use can develop our career in gaming which will lead to good income and popularity.

E - WASTE

Now-a-days, Environment is highly exploited by the waste products of factory, mine, while making construction and cleansing the 'Greens' for enlarging so called 'civilization'. Technology can be used to retrieve proper nature, solving day-to-day problems, achieving Sustainable Development goal, etc.

Options are available, choice is yours.
